Tuesday 5th March 2019

Dear Parent/Carers,

Year 5 visit to Bath science fair

As you may already know, next week is British science week. We will be celebrating this in school with a range of activities, on top of which, we have received funding for our Year 5 children to attend the Bath TAPS science fair on Friday 15th March at The University of Bath.

The fair will be made up of around 30-40 different stands where the students can get hands-on with science. These stands will be run by University of Bath staff and students, local science businesses, other universities and, unique to Bath Taps into Science, school students.

The event will take place within the normal school morning and the children will be back at school in time for lunch. Children should arrive at school as usual, wearing normal school uniform.

As we have received funding for this event there will be no charge to travel to or attend, so I very much hope every Year 5 child will take advantage of this great opportunity.

Please complete the permission form by Friday 8th March and return to the school office.

Thank you for your continued support

Eleanor Cook
Science lead

I give permission for my child _____ to attend the Bath

TAPS science fair at The university of Bath on Friday 15th March 2019.
