

Formal Consultation on the Proposed Opening of an ASC Base - St Dunstan's School

Representations/Comments	Response
Will the team for this be completely separate from the mainstream? What I mean is, are we having to go across to teach for English etc., or will the centre have its own English specialist?	Students in the base will access lessons in the mainstream as appropriate. Whilst students are in the base they will receive specialist support that will follow the curriculum of the main school, once it is on the St Dunstan's site. In the meantime the base has its own specialist teachers while based in Frome, but will base its curriculum around St Dunstan's School curriculum.
