

## Buckler's Mead Academy Careers Programme 24-25

We provide students with a comprehensive careers programme. Throughout their time at school, students will have the opportunity to experience a variety of career activities. This includes 1:1 careers interviews, employer and college/sixth form assemblies, careers workshops, higher education visits and a visit to a careers fayre. All students will also have links to careers and employability skills highlighted and taught to them through personal development sessions and the curriculum.
