

13 July 2022

Dear Parents and Carers,

**Re: Brean trip/hot weather**

As you may be aware, we are expecting very high temperatures on Monday and we would like to ensure your child is well protected from the heat whilst on the Brean Trip.

**Before School:**

- Parents are encouraged to ensure students apply sunscreen before they come to school and to bring this with them in order to re-apply it when necessary.
- It is essential that your child brings a bottle of water with them, which can be re-filled during the day as needed.
- Students should also bring a sun hat.

**During the visit:**

- We will encourage the students to stay in the shade as much as possible. I visited the site again yesterday and found several spots we can base ourselves in for the maximum amount of shade. Staff will be able to look after students' bags in these areas whilst they are on the rides.
- Students will be encouraged to have their water bottles with them and will be prompted to drink at regular intervals.

We held an assembly this afternoon to explain all the above to the students. Should you have any questions, please do not hesitate to contact me. Thank you for your continued support.

Yours faithfully,

Jane Manning  
Trip Leader
