

SHOW WHAT YOU KNOW ABOUT AFRICA

It's your turn to teach us! Can you teach us what you have learnt about Africa? You could create a poster, a travel brochure, a video (SeeSaw limits videos to 5 minutes) or whatever you like it's your chance to be as creative as you want to!

As it's half term next week you might like to extend your project and really get stuck into it! On this poster there are some key things you might want to consider.

Where on a map is Africa? Is Africa a country? What is a continent?

What Human and physical features would you find in Kenya?

What do traditional African clothes look like? What patterns do they have? Can you make some...

What is the weather like in Africa?

What is the Masai Mara?

How do houses in Kenya differ to houses in Radstock?

Who are the Masai tribe? How do they live similarly or differently to us?

How is life different in a village in Kenya, compared to Radstock?

Which animals might you find on a Kenyan safari? What group do they belong to? Are they herbivores, omnivores or carnivores, how do you know?

Can you create an African art master piece? Which colours will you choose? What will your art be made out of?

Upload one final project to SeeSaw when you are ready to show what you know!
