St Dunstan's School Celebrates a fantastic set of GCSE results

Students and staff at St Dunstan's School are celebrating a fantastic set of GCSE results today, marking another year of continued academic improvement. The school is very pleased to report a high number of students achieving strong passes in both English and Mathematics, a key indicator of success for all future pathways.

These excellent results extend across a wide range of subjects, including some fantastic results in Science. Success was also celebrated in numerous other subjects, from the Arts and Humanities to alternative qualifications, demonstrating the broad talent and hard work of the entire student body.

Beyond the overall statistics, there are countless stories of individual achievement and personal triumph. Many students have overcome significant challenges to achieve their goals, while others have secured the grades needed to pursue their dream courses at college and sixth form. The school is immensely proud of every single student who has worked so hard to reach their personal milestones. They have done us and more importantly, themselves proud!

Headteacher Mr Paul Balkwill commented, "I am incredibly proud of our students' achievements. Their resilience and dedication have truly paid off, and these results are a testament to their hard work. We also owe a huge thank you to our exceptional staff, whose unwavering support and commitment have guided our students every step of the way. Finally, a massive congratulations to the parents and families—your encouragement and partnership have been invaluable."

St Dunstan's School extends a huge congratulations to all students in the Class of 2025 and we wish them the very best for the future.
