Dear Parents/Carers

## Getting Help with Technology – Internet Data Allowances for Mobile Phones

You may be aware that the Government has made many announcements regarding the provision of education during the current lockdown. One announcement has been to do with the provision of additional data allowances to parents/carers where they are using their mobile phones to tether to a device so that their children can complete school work.

The Government has negotiated with the leading mobile network providers to agree a package of extra free data that parents/carers can apply for to support with online learning. This offer is limited to those families that are using mobile data allowances and is not available to families who have a fixed broadband provision.

If you would like to take advantage of this offer you must complete the electronic form (below) to record your interest in the scheme. Once completed we will send this information to the DfE. Some of this is personal information and it is important that you read the DfE Data Policy before completing the form. It will be assumed that if you complete the form that you have read the DfE Data Policy.

The privacy policy can be found here: <https://get-help-with-tech.education.gov.uk/increasing-mobile-data/privacy-notice>

It is important to note that the schools in the MAT are unable to give any information about the process of your application. Once we pass your data to the DfE, it will be forwarded to your network provider who will make the final decision about awarding this offer. Please **do not** call your child's school for an update as they will not have any information.

### The conditions of the offer are:

- You do not have a fixed broadband service
- As an account holder, you are over the age of 18
- You agree to share with us the following data that we will then share with the Government:
  - Account holder name (person who pays the bill and who name the contract is in)
  - Mobile phone number (always starts with a 07)
  - Network provider
  - PAYG or monthly contract

### The offer is only available to the following Networks:

- EE
- O2
- Sky Mobile
- SMARTY
- Tesco Mobile
- Three
- Virgin Mobile
- Vodafone

## Next steps

1. If you think you are eligible for this offer follow the link below to complete the Google form by **midday on Friday 22<sup>nd</sup> January 2021**.
2. If you have any questions, please contact your child's school who will pass on the information.
3. Wait to hear from your network provider.

Link to online form: <https://forms.gle/VkexJpwKZs6Z8qTz9>

## FAQ

### Will you share this data with anyone else?

We will not share this data with anyone outside of the MAT apart from the DfE. We will notify your child's school that you have applied so that they are aware.

### How to check someone's mobile network

Most smartphones display the name of the network on the top right or left of the screen.

### How to check if someone's on a Pay-as-you-go deal or a contract

The account holder will know if they top up their credit at a shop. If they do, they're likely to be a Pay-As-You-Go customer. If they have a monthly direct debit, they probably have a contract.

### How do I know if I have been accepted?

If you are accepted, the mobile number will receive a text from your network provider notifying you that the free data has been activated. This data can then be used to tether a mobile phone to another device for Internet access.

### I do not have a mobile device or fixed broadband

If you do not qualify for this offer, do not have fixed broadband and your child is struggling to access the online school resources, then you can apply using this process to see if we can ask for mobile Wi-Fi dongles.

Please note, that just because you apply for a Wi-fi dongle, It does not necessarily mean one will be awarded to you. The DfE will receive thousands of requests and they will have a limited number they can allocate.

### Is there a time limit on this application?

Yes – all requests must be submitted by **Midday on Friday 22<sup>nd</sup> January**. The MAT will process and pass the data to the DfE that afternoon.

On the final page, you will find details about how the various network providers will respond to you once they get the data from the DfE.

I hope this is of use to you.

Kind regards

*M Lynch*

Mark Lynch  
MNSP Director ICT
