

Mathematics Curriculum Progression

Purpose:

Mathematics is a creative and highly inter-connected discipline that has been developed over centuries, providing the solution to some of history's most intriguing problems. It is essential to everyday life, critical to science, technology and engineering, and necessary for financial literacy and most forms of employment. A high-quality mathematics education therefore provides a foundation for understanding the world, the ability to reason mathematically, an appreciation of the beauty and power of mathematics, and a sense of enjoyment and curiosity about the subject. The national curriculum for mathematics aims to ensure that all pupils:

- become fluent in the fundamentals of mathematics, including through varied and frequent practice with increasingly complex problems over time, so that pupils develop conceptual understanding and the ability to recall and apply knowledge rapidly and accurately.
- reason mathematically by following a line of enquiry, conjecturing relationships and generalisations, and developing an argument, justification or proof using mathematical language
- can solve problems by applying their mathematics to a variety of routine and non-routine problems with increasing sophistication, including breaking down problems into a series of simpler steps and persevering in seeking solutions

The progression is based on White Rose small steps, however individual schools use different schemes which may teach the steps in a different sequence.

Threshold Concept: Number and Place Value

	Development Matters and National Curriculum Objectives	Sequence of Learning	Essential Prior knowledge for recall	Vocabulary	Key Questions for assessment
Early Years Foundation Stage	<p>Early Learning Goal</p> <ul style="list-style-type: none"> - Children count reliably with numbers from one to 20, place them in order and say which number is one more or one less than a given number. 	<p>Autumn</p> <ul style="list-style-type: none"> - one, two three - four - five - Comparing quantities of identical objects - Comparing quantities of non-identical objects <p>Spring</p> <ul style="list-style-type: none"> - Counting to 6, 7 and 8 - Counting to 9 and 10 - Comparing groups up to 10 <p>Summer</p> <ul style="list-style-type: none"> - Counting to 20 	<p>Development Matters 30-50 statements:</p> <p>Uses some number names and number language spontaneously. Uses some number names accurately in play.</p> <p>Recites numbers in order to 10. Knows that numbers identify how many objects are in a set. Beginning to represent numbers using fingers, marks on paper or pictures.</p> <p>Sometimes matches numeral and quantity correctly. Shows curiosity about numbers by offering comments or asking questions. Compares two groups of objects, saying when they have the same number. Shows an interest in number problems.</p>	<p>Counting</p> <p>number zero, one, two, three... to twenty and beyond zero, ten, twenty... one hundred none how many...? count, count (up) to count on (from, to) count back (from, to) count in ones, twos... tens... more, less, many, few odd, even every other how many times? pattern, pair guess how many, estimate nearly, close to, about the same as just over, just under too many, too few, enough, not enough</p>	<p>Counting zero, one, two, three... to twenty and beyond</p> <p>how many are there altogether?</p> <p>What is one more than...?</p> <p>What is one less than...?</p> <p>Using a ten frame (or equivalent representation) can children identify the number - how do you know?</p> <p>Count in steps of 2, 5 and 10</p>

Mathematics Curriculum Progression

			<p>Shows an interest in numerals in the environment. Shows an interest in representing numbers. Realises not only objects, but anything can be counted, including steps, claps or jumps.</p> <p>40-60 statements: Recognise some numerals of personal significance. Recognises numerals 1 to 5. Counts up to three or four objects by saying one number name for each item. Counts actions or objects which cannot be moved. Counts objects to 10, and beginning to count beyond 10. Counts out up to six objects from a larger group. Selects the correct numeral to represent 1 to 5, then 1 to 10 objects. Counts an irregular arrangement of up to ten objects. Estimates how many objects they can see and checks by counting them. Uses the language of 'more' and 'fewer' to compare two sets of objects. Says the number that is one more than a given number. Records, using marks that they can interpret and explain.</p>	<p>Comparing and ordering numbers the same number as, as many as <i>Of two objects/amounts:</i> greater, more, larger, bigger less, fewer, smaller <i>Of three or more objects/amounts:</i> greatest, most, biggest, largest least, fewest, smallest one more, ten more one less, ten less compare order size first, second, third... tenth last, last but one before, after next between above, below</p>	
Year 1	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number - count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens given a number, identify one more and one less - identify and represent numbers using objects and pictorial representations including the number line, and use the 	<p>Autumn</p> <ul style="list-style-type: none"> - Sort objects - Count objects - Represent objects - Count, read and write forwards from any number 0-10 - Count, read and write backwards from any number 0-10 - Count one more - Count one less - One to one correspondence to start to compare groups 	<ul style="list-style-type: none"> - Children count reliably with numbers from one to 20, place them in order and say which number is one more or one less than a given number. 	<p>Counting, properties of numbers and number sequences number zero, one, two, three... to twenty and beyond zero, ten, twenty... one hundred none how many...? count, count (up) to, count on (from, to) count back (from, to) count in ones, twos... tens... more, less, many, few odd, even</p>	<p>White Rose Autumn Place Value Assessment https://whiterosemaths.com/resources/assessment/primary-assessment/end-of-block-assessments/</p> <p>Summer Place Value to 100 Assessment https://whiterosemaths.com/resources/asses</p>

Mathematics Curriculum Progression

	<p>language of: equal to, more than, less than (fewer), most, least</p> <ul style="list-style-type: none"> - read and write numbers from 1 to 20 in numerals and words. 	<ul style="list-style-type: none"> - Compare groups using language such as equal, more/greater, less/fewer - Introduce <, > and = symbols - Compare numbers - Order groups of objects - Order numbers - Ordinal numbers (1st, 2nd, 3rd...) - The number line - Count forwards and backwards and write numbers to 20 in numerals and words - Numbers from 11-20 - Tens and ones - Count one more and one less - Compare groups of objects - Compare numbers - Order groups of objects - Order numbers <p>Spring</p> <ul style="list-style-type: none"> - Numbers to 50 - Tens and ones - Represent numbers to 50 - One more one less - Compare objects within 50 - Compare numbers within 50 - Order numbers within 50 - Count in 2s - Count in 5s <p>Summer</p> <ul style="list-style-type: none"> - Counting to 100 - Partitioning numbers - Comparing numbers - Ordering numbers - One more, one less 		<p>Place value and ordering</p> <p><i>units, ones, tens</i> <i>exchange</i> <i>digit</i> <i>'teens' number</i> the same number as, as many as <i>equal to</i> <i>Of two objects/amounts:</i> greater, more, larger, bigger less, fewer, smaller <i>Of three or more objects/amounts:</i> greatest, most, biggest, largest, least, fewest, smallest one more, ten more, one less, ten less compare, order first, second, third... tenth, <i>eleventh</i>... last, last but one before, after, next between, <i>half-way between</i> <i>above, below</i></p> <p>Estimating</p> <p>guess how many, estimate nearly, <i>roughly</i>, close to about the same as just over, just under too many, too few, enough, not enough</p>	<p>sment/primary-assessment/end-of-block-assessments/ See also mathematical talk section in white rose scheme of learning for key questions.</p>
<p>Year 2</p>	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward - recognise the place value of each digit in a two-digit number (tens, ones) - identify, represent and estimate numbers using different representations, including the number line 	<ul style="list-style-type: none"> - Count objects to 100 and read and write numbers in numerals and words - Represent numbers to 100 - Tens and ones with a part-whole model - Tens and ones using addition - Use a place value chart - Compare objects - Compare numbers - Order objects and numbers - Count in 2s, 5s and 10s 	<ul style="list-style-type: none"> - Read and write numbers from 1 to 20 in numerals and words - Identify and represent numbers using objects and pictorial representations including the number line - Use the language of more than/less than (fewer), most, least, equal to when comparing the value of numbers - Count to and across 100, forwards and backwards, 	<p>Counting, properties of numbers and number sequences</p> <p>number zero, one, two, three... to twenty and beyond zero, ten, twenty... one hundred zero, one hundred, <i>two hundred</i>... <i>one thousand</i> none how many...? count, count (up) to, count on (from, to) count back (from, to)</p>	<p>White Rose Place Value Assessment https://whiterosemaths.com/wp-content/uploads/2018/08/Year-2-Place-Value_End-of-Block-Assessment.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>

Mathematics Curriculum Progression

	<ul style="list-style-type: none"> - compare and order numbers from 0 up to 100; use <, > and = signs - read and write numbers to at least 100 in numerals and in words - use place value and number facts to solve problems. 	<ul style="list-style-type: none"> - Count in 3s 	<ul style="list-style-type: none"> beginning with 0 or 1, or from any given number - Count in multiples of twos, fives and tens - Can order numbers to 20 accurately - Understand how a number line and number grid is organised 	<p>count in ones, twos, <i>threes, fours, fives, tens and so on</i> more, less, many, few <i>tally</i> odd, even, every other how many times? <i>multiple of</i> <i>sequence</i> <i>continue</i> <i>predict</i> pattern, pair, <i>rule</i> Place value and ordering units, ones, tens, <i>hundreds</i> digit <i>one-, two- or three-digit number</i> 'teens' number <i>place, place value</i> <i>stands for, represents</i> <i>exchange</i> the same number as, as many as equal to <i>Of two objects/amounts:</i> greater, more, larger, bigger less, fewer, smaller <i>Of three or more objects/amounts:</i> greatest, most, biggest, largest least, fewest, smallest one more, ten more, one less, ten less compare, order, size first, second, third... tenth... twentieth <i>twenty-first, twenty-second...</i> last, last but one before, after, next between, half-way between above, below Estimating guess how many, estimate nearly, roughly, close to about the same as just over, just under, <i>exact, exactly</i> too many, too few, enough, not enough round, nearest, round to the nearest ten</p>	
Year 3	Pupils should be taught to: <ul style="list-style-type: none"> - count from 0 in multiples of 4, 8, 50 and 100; find 10 or 100 more or less than a given number 	<ul style="list-style-type: none"> - Hundreds - Represent numbers to 1000 - 100s, 10s and 1s - Number line to 1000 	<ul style="list-style-type: none"> - Understand place value in numbers up to two digits - Read and write numbers up to 100 	Place value, Digit Hundreds, Tens, Ones Estimate Number line Scale	White Rose Place Value Assessment https://whiterosemaths.com/wp-content/uploads/2018/08/Year-3-P

Mathematics Curriculum Progression

	<ul style="list-style-type: none"> - recognise the place value of each digit in a three-digit number (hundreds, tens, ones) - compare and order numbers up to 1000 - identify, represent and estimate numbers using different representations - read and write numbers up to 1000 in numerals and in words - solve number problems and practical problems involving these ideas. 	<ul style="list-style-type: none"> - Find 1, 10, 100 more or less than a given number - Compare objects to 1000 - Compare numbers to 1000 - Order numbers - Count in 50s 	<ul style="list-style-type: none"> - Use zero as a place holder in two-digit numbers - Use and interpret a number line to represent numbers - Understand place value in numbers up to 1000 - Use <, > and = symbols - Count in steps of 2, 3 and 5 from 0 - Count in tens from any number, forward and backward 	<p>Multiple More, Less Positive Number line</p> <p>Notation Use of <, > and = symbols when comparing numbers</p>	<p>lace-Value_End-of-Block-Assessment.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>
Year 4	<p>Pupils should be taught to</p> <ul style="list-style-type: none"> - count in multiples of 6, 7, 9, 25 and 1000 - find 1000 more or less than a given number - count backwards through zero to include negative numbers - recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones) - order and compare numbers beyond 1000 - identify, represent and estimate numbers using different representations - round any number to the nearest 10, 100 or 1000 - solve number and practical problems that involve all of the above and with increasingly large positive numbers - read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value. 	<ul style="list-style-type: none"> - Roman numerals to 100 - Round to the nearest 10 - Round to the nearest 100 - Count in 1000s - 1000s, 100s, 10s, 1s - Partitioning - Number line to 10,000 - 1000 more or less - Compare numbers - Order numbers - Round to the nearest 1000 - Count in 25s - Negative numbers 	<ul style="list-style-type: none"> - Understand place value in numbers up to three digits - Know the Roman numerals I, V and X - Read Roman numerals up to XII - Use zero as a place holder in two- and three-digit numbers - Use and interpret a number line to represent numbers 	<p>Tenths, hundredths, decimal (places), round (to nearest), thousand more/less than, negative integers, count through zero, Roman numerals I to C</p>	<p>White Rose Place Value Assessment https://whiterosemaths.com/wp-content/uploads/2018/08/Year-4-Place-Value_End-of-Block-Assessment.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>
Year 5	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit 	<ul style="list-style-type: none"> - Numbers to 10,000 - Roman numerals to 1,000 - Round to the nearest 10, 100, 1,000 - Numbers to 100,000 	<ul style="list-style-type: none"> - Recognise and use factor pairs and commutativity in mental calculations - Understand and use place value in four-digit numbers 	<p>Place value, Digit Roman numerals Negative number Multiple, (Common) factor Divisible</p>	<p>White Rose Place Value Assessment https://whiterosemaths.com/wp-content/uploads/2018/08/Year-5-Place-Value_End-of-Block-Assessment.pdf</p>

Mathematics Curriculum Progression

	<ul style="list-style-type: none"> - count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 - interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero - round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000 - solve number problems and practical problems that involve all of the above - read Roman numerals to 1000 (M) and recognise years written in Roman numerals. 	<ul style="list-style-type: none"> - Compare and order numbers to 100,000 - Round numbers within 100,000 - Numbers to a million - Counting in 10s, 100s, 1,000s, 10,000s, 100,000s - Compare and order numbers to one million - Round numbers to one million - Negative numbers 	<ul style="list-style-type: none"> - Know Roman numerals from I to C - Read numbers written in Roman numerals up to 100 - Count forwards and backwards in whole number steps 	<p>Factor pairs, Prime number, Composite number, Square number, Cube number Power</p> <p>Notation 5^2 is read as '5 to the power of 2' or '5 squared' and means '2 lots of 5 multiplied together' 5^3 is read as '5 to the power of 3' or '5 cubed' and means '3 lots of 5 multiplied together'</p>	<p>lace-Value_End-of-Block-Assessment.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>
Year 6	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - read, write, order and compare numbers up to 10 000 000 and determine the value of each digit - round any whole number to a required degree of accuracy - use negative numbers in context, and calculate intervals across zero - solve number and practical problems that involve all of the above. 	<ul style="list-style-type: none"> - Numbers to ten million - Compare and order any number - Round any number - Negative numbers 	<ul style="list-style-type: none"> - Understand and use place value in numbers with up to seven digits - Multiply and divide whole numbers by 10, 100, 1000 - Multiply and divide numbers with one decimal place by 10, 100, 1000 - Know the meaning of 'factor' and 'multiple' and 'prime' 	<p>Place value, Digit Negative number (Common) multiple, (Common) factor Divisible Prime number, Composite number Approximate (noun and verb) Round Decimal place Estimate (noun and verb) Accurate, Accuracy</p>	<p>White Rose Number and Place Value Assessment https://whiterosemaths.com/wp-content/uploads/2018/09/Year-6-Place-Value_End-of-Block-Assessment.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>

Mathematics Curriculum Progression

Threshold Concept: Addition and Subtraction:

	Development Matters, National Curriculum and Statutory Framework Objectives	Sequence of Learning	Essential Prior knowledge for recall	Vocabulary	Key Questions for assessment
Early Years Foundation Stage	<p>Early Learning Goal</p> <ul style="list-style-type: none"> - Using quantities and objects, they add and subtract two single-digit numbers and count on or back to find the answer. 	<p>Autumn</p> <ul style="list-style-type: none"> - Sorting into groups - One more - One less <p>Spring</p> <ul style="list-style-type: none"> - Number bonds to 5 - Combining two groups to find the whole - Number bonds to 10 - ten frame - Number bonds to 10 - part-whole model <p>Summer</p> <ul style="list-style-type: none"> - Adding by counting on - Taking away by counting back 	<p>Development Matters</p> <p>30-50 statements: Separates a group of three or four objects in different ways, beginning to recognise that the total is still the same. Shows an interest in number problems.</p> <p>40-60 statements: Finds one more or one less from a group of up to five objects, then ten objects. Finds the total number of items in two groups by counting all of them In practical activities and discussion, beginning to use the vocabulary involved in adding and subtracting. Records, using marks that they can interpret and explain. Begins to identify own mathematical problems based on own interests and fascinations.</p>	<p>Adding and subtracting add, more, and make, sum, total, altogether score double one more, two more, ten more... how many more to make... ? how many more is... than...? take (away), leave how many are left/left over? how many have gone? one less, two less... ten less... how many fewer is... than...? difference between is the same as</p>	<p>With a selection of objects - how many more to make... ? how many more is... than...? how many fewer is... than...? Can you add 4 and 5 by counting on? Take away three, how many are left?</p>

Mathematics Curriculum Progression

<p>Year 1</p>	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - read, write and interpret mathematical statements involving addition (+), subtraction (−) and equals (=) signs - represent and use number bonds and related subtraction facts within 20 - add and subtract one-digit and two-digit numbers to 20, including zero - solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = ? - 9$. 	<p>Autumn</p> <ul style="list-style-type: none"> - Part-whole model - Addition symbol - Fact families - addition facts - Find number bonds for numbers within 10 - Systematic methods for number bonds within 10 - Number bonds within 10 - Compare number bonds - Addition-adding together - Finding a part - Subtraction - taking away, how many left? Crossing out - Introducing the subtraction symbol - Subtraction - finding a part, breaking apart - Fact families - the 8 facts - Subtraction - counting back - Subtraction - finding the difference - Comparing addition and subtraction statements $a+b>c$ - Comparing addition and subtraction statements $a+b>c+d$ <p>Spring</p> <ul style="list-style-type: none"> - Adding by counting on - Find & make number bonds - Add by making 10 - Subtraction - Not crossing 10 - Related facts - Compare number sentence 	<ul style="list-style-type: none"> - Order numbers to 20 accurately - Understand how a number line is organised - Count accurately from 0 to 21 - Count up to 20 objects accurately and attribute the correct numeral to label the set - Subitise small groups of objects (i.e. can say how many there are without needing to count each individual object.) - Understand the 'cardinal' value of a set/ array. (Once it has been counted they understand that they don't need to count again.) - Identify the number that is one more than a number - Identify the number that is one less than a number - Know addition and subtraction facts to and from 10 - Know addition and subtraction facts within 10 - Know addition and subtraction facts to and from 20 - Know addition and subtraction facts within 20 - Pupils need to be able to count on and back in ones from any given number to 20. - Pupils need to be able to read, write and order numbers to at least 20 	<p>Addition and subtraction</p> <p>+, add, more, <i>plus</i> make, sum, total, altogether double, <i>near double</i> one more, two more... ten more how many more to make...? how many more is... than...? <i>how much more is...?</i> -, <i>subtract</i>, take (away), <i>minus</i> leave how many are left/left over? how many are gone? one less, two less, ten less... how many fewer is... than...? <i>how much less is...?</i> difference between <i>half, halve</i> =, <i>equals</i>, <i>sign</i>, is the same as</p>	<p>White Rose Addition and Subtraction Assessment https://whiterosemaths.com/resources/assessment/primary-assessment/end-of-block-assessments/ See also mathematical talk section in white rose scheme of learning for key questions.</p>
<p>Year 2</p>	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - solve problems with addition and subtraction: using concrete objects and pictorial representations, including those involving numbers, quantities and measures applying their increasing knowledge of mental and written methods recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 	<ul style="list-style-type: none"> - Fact families - addition and subtraction bonds to 20 - Check calculations - Compare number sentences - Related facts - Bonds to 100 (tens) - Add and subtract 1s - 10 more and 10 less - Add and subtract 10s - Add a 2-digit and 1-digit number - crossing 10 - Subtract a 1-digit number from a 2-digit number - crossing ten 	<ul style="list-style-type: none"> - Understand the value of digits in two-digit numbers - Interpret a mathematical statement involving the symbols + and = or − and = - Add and subtract one- and two-digit numbers to 20, including 0 	<p>Addition and subtraction</p> <p>+, add, <i>addition</i>, more, plus make, sum, total, altogether double, near double one more, two more... ten more... <i>one hundred more</i> how many more to make...? how many more is... than...? how much more is...? -, <i>subtract</i>, take away, <i>minus</i> leave, how many are left/left over? one less, two less... ten less... <i>one hundred less</i></p>	<p>White Rose Addition and Subtraction Assessment https://whiterosemaths.com/wp-content/uploads/2018/09/Year-2-Addition-and-Subtraction.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>

Mathematics Curriculum Progression

	<ul style="list-style-type: none"> - add and subtract numbers using concrete objects, pictorial representations, and mentally, including: a two-digit number and ones; a two-digit number and tens; two two-digit numbers; adding three one-digit numbers - show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot - recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems. 	<ul style="list-style-type: none"> - Add two 2-digit numbers - not crossing ten - add ones and add tens - Add two 2-digit numbers - crossing tens - add ones and add tens - Subtract a 2-digit number from a 2-digit number - not crossing ten - Subtract a 2-digit number from a 2-digit number - crossing ten - subtract ones and tens - Bonds to 100 (tens and ones) - Add three 1-digit numbers 		<p>how many less is... than...? how much fewer is...? difference between half, halve =, equals, sign, is the same as <i>tens boundary</i></p>	
Year 3	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - add and subtract numbers mentally, including: a three-digit number and ones; a three-digit number and tens; a three-digit number and hundreds; add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction - estimate the answer to a calculation and use inverse operations to check answers solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction. 	<ul style="list-style-type: none"> - Add and subtract multiples of 100 - Add and subtract 3-digit and 1-digit numbers - not crossing 10 - Add 3-digit and 1-digit numbers - crossing 10 - Subtract a 1-digit number from a 3-digit number - crossing 10 - Add and subtract 3-digit and 2-digit numbers -not crossing 100 - Add 3-digit and 2-digit numbers - crossing 100 - Subtract a 2-digit number from a 3-digit number - crossing 100 - Add and subtract 100s - Spot the pattern - making it explicit - Add and subtract 2-digit and 3-digit numbers - not crossing 10 or 100 - Add a 2-digit and 3-digit number - crossing 10 and 100 - Subtract a 2-digit number from a 3-digit number - crossing 10 or 100 - Add two 3-digit numbers - not crossing 10 or 100 - Add two 3-digit numbers - crossing 10 or 100 - Subtract a 3-digit number from a 3-digit number - no exchange - Subtract a 3-digit number from a 3-digit number - exchange 	<ul style="list-style-type: none"> - Know that addition and subtraction are inverse operations - Recall addition and subtraction facts to 20 - Derive addition and subtraction facts to 100 - Add and subtract two-digit numbers and ones (or tens) mentally 	<p>Calculation, Calculate Addition, Subtraction Sum, Total, Difference, Minus, Less Column addition, Column subtraction Exchange Operation Estimate Inverse, Operation</p>	<p>White Rose Addition and Subtraction Assessment https://whiterosemaths.com/wp-content/uploads/2018/09/Year-3-Addition-and-Subtraction.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>

Threshold Concept: Geometry (Properties of shape)

	Development Matters and National Curriculum Objectives	Sequence of Learning	Essential Prior knowledge for recall	Vocabulary	Key Questions for assessment
Early Years Foundation Stage	<p>Early Learning Goal</p> <ul style="list-style-type: none"> - Children explore characteristics of everyday objects and shapes and use mathematical language to describe them. - They recognise, create and describe patterns. 	<p>Spring</p> <ul style="list-style-type: none"> - 3D shapes - 2D shapes <p>Summer</p> <ul style="list-style-type: none"> - Making simple patterns - Exploring more complex patterns 	<p>Development Matters 30-50 statements:</p> <p>Shows an interest in shape and space by playing with shapes or making arrangements with objects.</p> <p>Shows awareness of similarities of shapes in the environment.</p> <p>Shows interest in shape by sustained construction activity or by talking about shapes or arrangements.</p> <p>Shows interest in shapes in the environment.</p> <p>Uses shapes appropriately for tasks.</p> <p>Beginning to talk about the shapes of everyday objects, e.g. 'round' and 'tall'.</p>	<p>Exploring patterns, shape and space</p> <p>shape, pattern</p> <p>flat, curved, straight, round</p> <p>hollow, solid</p> <p>corner, face, side, edge, end</p> <p>sort, make, build, draw</p> <p>3D shapes</p> <p>cube, pyramid, sphere, cone</p> <p>2D shapes</p> <p>circle, triangle, square, rectangle, star</p> <p>Patterns and symmetry</p> <p>size, bigger, larger, smaller</p> <p>symmetrical, pattern, repeating pattern</p> <p>Position, direction and movement</p> <p>position, over, under, above, below</p>	<p>Which shape is a...?</p> <p>How many ... can we see in the classroom?</p> <p>Shape hunt around the school</p> <p>Build a model using blocks of different shape - can you tell me how many you've used?</p>

Mathematics Curriculum Progression

			<p>40-60 statements: Beginning to use mathematical names for 'solid' 3D shapes and 'flat' 2D shapes, and mathematical terms to describe shapes. Selects a particular named shape. Uses familiar objects and common shapes to create and recreate patterns and build models.</p>	<p>top, bottom, side, on, in outside, inside, around, in front, behind front, back, before, after, beside, next to opposite, apart, between, middle, edge corner, direction, left, right, up, down forwards, backwards, sideways, across close, far, near, along, through, to, from, towards, away from, movement slide, roll, turn, stretch, bend</p>	
Year 1	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - recognise and name common 2-D and 3-D shapes, including: 2-D shapes [for example, rectangles (including squares), circles and triangles] 3-D shapes [for example, cuboids (including cubes), pyramids and spheres]. 	<ul style="list-style-type: none"> - Recognise and name 3D shapes - Sort 3D shapes - Recognise and name 2D shapes - Sort 2D shapes - Patterns with 3D and 2D shapes 		<p>Shape and space shape, pattern flat, curved, straight, round hollow, solid corner, <i>point</i>, <i>pointed</i>, face, side, edge, end sort, make, build, draw 3D shapes cube, <i>cuboid</i>, pyramid, sphere, cone <i>cylinder</i> 2D shapes circle, triangle, square, rectangle, star Patterns and symmetry size, bigger, larger, smaller symmetrical, pattern, repeating pattern</p>	<p>See also mathematical talk section in white rose scheme of learning for key questions.</p>
Year 2	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line - identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces - identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid] - compare and sort common 2-D and 3-D shapes and everyday objects. 	<ul style="list-style-type: none"> - Recognise 2D and 3D shapes - Count sides on 2D shapes - Count vertices on 2D shapes - Lines of symmetry - Sort 2D shapes - Make patterns with 2D shapes - Count faces on 3D shapes - Count edges on 3D shapes - Count vertices on 3D shapes - Sort 3D shapes - Make patterns with 3D shapes 	<ul style="list-style-type: none"> - Recognise and name different 2-D shapes - Find everyday examples of 2-D shapes - Recognise and name different 3-D shapes - Find everyday examples of 3-D shapes 	<p>Shape and space shape, pattern flat, curved, straight, round hollow, solid corner, <i>point</i>, <i>pointed</i>, face, side, edge, end, <i>surface</i> sort, make, build, draw 3D shapes cube, <i>cuboid</i>, pyramid, sphere, cone <i>cylinder</i> 2D shapes circle, circular, triangle, triangular, square, rectangle, rectangular star, pentagon, hexagon, octagon Patterns and symmetry size, bigger, larger, smaller symmetrical, pattern, repeating pattern</p>	<p>White Rose Properties of Shape Assessment of Shape Assessment https://whiterosemaths.com/wp-content/uploads/2019/01/Primary_Spring_Mini_Assessments/Spring-Block-3-Year-2-Properties-of-Shape_Assessment.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>

Mathematics Curriculum Progression

				line of symmetry fold, match mirror line, reflection	
Year 3	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - draw 2-D shapes and make 3-D shapes using modelling materials; - recognise 3-D shapes in different orientations and describe them - recognise angles as a property of shape or a description of a turn - identify right angles, - recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; - identify whether angles are greater than or less than a right angle - identify horizontal and vertical lines and pairs of perpendicular and parallel lines. 	<ul style="list-style-type: none"> - Turns and angles - Right angles in shapes - Compare angles - Draw accurately - Horizontal and vertical - Parallel and perpendicular - Recognise and describe 2D shapes - Recognise and describe 3D shapes - Make 3D shapes 	<ul style="list-style-type: none"> - Know the names of common 2D shapes - Know the names of cuboids, prisms, spheres, pyramids and cones - Know the meaning of side, edge, vertex (vertices) and face - Use a straightedge to construct lines and shapes - Recognise and name the fractions $\frac{1}{2}$, $\frac{1}{4}$, $\frac{2}{4}$, $\frac{3}{4}$ 	<p>Horizontal, Vertical, Perpendicular Parallel Face, Edge, Vertex (Vertices) Cube, Cuboid, Prism, Cylinder, Pyramid, Cone, Sphere Quadrilateral, Square, Rectangle, Parallelogram, (Isosceles) Trapezium, Kite, Rhombus, Triangle, Circle Polygon, Hexagon, Pentagon, Octagon, Decagon</p> <p>Notation Arrow notation to represent parallel lines Right angle notation for perpendicular lines</p>	<p>White Rose Properties of Shape Assessment https://whiterosemaths.com/wp-content/uploads/2019/05/Year-3-Properties-of-Shape.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>
Year 4	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes - identify acute and obtuse angles and compare and order angles up to two right angles by size - identify lines of symmetry in 2-D shapes presented in different orientations - complete a simple symmetric figure with respect to a specific line of symmetry 	<ul style="list-style-type: none"> - Identify angles - Compare and order angles - Triangles - Quadrilaterals - Lines of symmetry - Complete a symmetric figure 	<ul style="list-style-type: none"> - Reflect a shape in a vertical line of symmetry - Use a ruler to construct a straight line joining two points - Know the names of special quadrilaterals - Understand angles as a measure of turn - Recognise angles in shapes - Identify right angles as a quarter turn 	<p>Turn Angle Right angle Acute angle Obtuse angle Greater than, less than</p> <p>Notation Right angle notation Arc notation for all other angles</p>	<p>White Rose Properties of Shape Assessment https://whiterosemaths.com/wp-content/uploads/2019/06/Year-4-Block-5-Properties-of-shape.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>

Mathematics Curriculum Progression

<p>Year 5</p>	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - identify 3-D shapes, including cubes and other cuboids, from 2-D representations - know angles are measured in degrees: - estimate and compare acute, obtuse and reflex angles - draw given angles, and measure them in degrees - identify: angles at a point and one whole turn (total 360o) angles at a point on a straight line and 2 1 a turn (total 180o) - other multiples of 90o - use the properties of rectangles to deduce related facts and find missing lengths and angles - distinguish between regular and irregular polygons based on reasoning about equal sides and angles. 	<ul style="list-style-type: none"> - Measuring angles in degrees - Measuring with a protractor - Drawing lines and angles accurately - Calculating angles on a straight line - Calculating angles around a point - Calculating lengths and angles in shapes - Regular and irregular polygons - Reasoning about 3D Shapes 	<ul style="list-style-type: none"> - Identify right angles - Use coordinates in the first quadrant - Understand that an acute angle is less than a right angle - Understand that an obtuse angle is greater than a right angle and less than two right angles - Identify acute angles - Identify obtuse angles - Identify acute, obtuse and right angles in shapes - Compare angles up to two right angles in size - Order angles up to two right angles in size 	<p>Turn Angle Degrees Right angle Acute angle Obtuse angle Reflex angle Protractor</p> <p>Notation Right angle notation Arc notation for all other angles The degree symbol (°)</p>	<p>White Rose Properties of Shape Assessment https://whiterosemaths.com/wp-content/uploads/2019/04/Year-5-Properties-of-Shape.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>
<p>Year 6</p>	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - draw 2-D shapes using given dimensions and angle - recognise, describe and build simple 3-D shapes, including making nets - compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons - illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius - recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles. 	<ul style="list-style-type: none"> - Measure with a protractor - Introduce angles - Calculate angles - Vertically opposite angles - Angles in a triangle - Angles in a triangle - special cases - Angles in a triangle - missing angles - Angles in special quadrilaterals - Angles in regular polygons - Draw shapes accurately - Draw nets of 3D shapes 	<ul style="list-style-type: none"> - Know the names of common 2D shapes - Know the names of common 3D shapes - Use a protractor to measure and draw angles - Know the properties of rectangles - Know the difference between a regular and an irregular polygon - Add and subtract numbers up to three digits 	<p>Protractor. Measure Cube, Cuboid, Cylinder, Pyramid, Prism Net, Edge, Face, Vertex (Vertices) Quadrilateral, Square, Rectangle, Parallelogram, (Isosceles) Trapezium, Kite, Rhombus, Delta, Arrowhead Triangle, Scalene, Right-angled, Isosceles, Equilateral Polygon, Regular, Irregular Pentagon, Hexagon, Octagon, Decagon, Dodecagon Circle, Radius, Diameter, circumference, Centre Parallel, Diagonal Angle</p> <p>Notation Dash notation to represent equal lengths in shapes and geometric diagrams Right angle notation</p>	<p>White Rose Assessment Properties of shape https://whiterosemaths.com/wp-content/uploads/2019/04/2019/04/2019/04/Year-6-Properties-of-Shape.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>

Mathematics Curriculum Progression

Threshold Concept: Geometry (Describe position, direction and movement)

	Development Matters and National Curriculum Objectives	Sequence of Learning	Essential Prior knowledge for recall	Vocabulary	Key Questions for assessment
Early Years Foundation Stage	Early Learning Goal: - Children use everyday language to talk about position and distance.	Spring - Spatial awareness	Development Matters 30-50 statements: Uses positional language. 40-60 statements: Can describe their relative position such as 'behind' or 'next to'.	position over, under above, below top, bottom, side on, in outside, inside around in front, behind front, back beside, next to opposite apart between middle, edge corner direction left, right up, down forwards, backwards, sideways across next to, close, near, far along through to, from, towards, away from movement slide roll turn stretch, bend whole turn, half turn	<ul style="list-style-type: none"> - Show them a picture/set up a tuff top - which animal is behind the tree? What is in front of the rocks? - PE lesson with large obstacles and child have to move themselves
Year 1	Pupils should be taught to: - describe position, direction and movement, including whole, half, quarter and three- quarter turns.	<ul style="list-style-type: none"> - Describe turns - Describe position 	<ul style="list-style-type: none"> - Describe position using language such as 'behind' or 'next to' - Know the language of half and quarter 	position, over, under, <i>underneath</i> above, below, top, bottom, side on, in, outside, inside, around, in front, behind, front, back before, after, beside, next to, opposite apart, between middle, edge, <i>centre</i> , corner, direction <i>journey</i> , left, right, up, down forwards, backwards, sideways across, close, far, near, along, through to, from, towards, away from movement, slide, roll, turn, <i>whole turn</i> , <i>half turn</i>	White Rose Position and Direction Assessment https://whiterosemaths.com/resources/assessment/primary-assessment/en-d-of-block-assessments/ See also mathematical talk section in white rose scheme of learning for key questions.

Mathematics Curriculum Progression

				stretch, bend	
Year 2	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - order and arrange combinations of mathematical objects in patterns and sequences - use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anticlockwise). 	<ul style="list-style-type: none"> - Describing movement - Describing turns - Describing movement and turns - Making patterns with shapes 	<ul style="list-style-type: none"> - Describe position using language such as 'behind', 'next to', 'on top of' and 'between' - Describe position, direction and movement, including whole, half, quarter and three-quarter turns - Connect moving clockwise with movement on a clock face 	position, over, under, underneath above, below, top, bottom, side on, in, outside, inside, around, in front, behind, front, back, before, after beside, next to, opposite, apart, between middle, edge, centre, corner, direction journey, route, left, right, up, down higher, lower, forwards, backwards, sideways, across, close, far, near along, through, to, from, towards, away from clockwise, anti-clockwise movement, slide, roll, whole turn, half turn, quarter turn, right angle straight line, stretch, bend	White Rose Position and Direction Assessment https://whiterosemaths.com/wp-content/uploads/2019/04/2019/04/2019/04/Year-2-Position-and-Direction.pdf See also mathematical talk section in white rose scheme of learning for key questions.
Year 3				Half, Quarter, Three quarters Angle, Turn, Right angle Greater than, less than Notation Right angle notation	
Year 4	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - describe positions on a 2-D grid as coordinates in the first quadrant - describe movements between positions as translations of a given unit to the left/right and up/down - plot specified points and draw sides to complete a given polygon. 	<ul style="list-style-type: none"> - describe position - draw on a grid - move on a grid - describe a movement on a grid 	<ul style="list-style-type: none"> - Know names and basic properties of polygons - Know the language of movement; left, right, up and down 	2-D Grid, Axis, axes, x-axis, y-axis, Origin (First) quadrant, coordinates Point, Translation, Transformation Left, right, up, down Notation Coordinates should be separated by a comma and enclosed in brackets (x, y)	White Rose Position and Direction Assessment https://whiterosemaths.com/wp-content/uploads/2019/06/Year-4-Block-6-Position-and-direction.pdf See also mathematical talk section in white rose scheme of learning for key questions.
Year 5	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed. 	<ul style="list-style-type: none"> - position in the first quadrant - reflection - reflection with coordinates - translation - translation with coordinates 	<ul style="list-style-type: none"> - Use coordinates in the first quadrant - Describe a translation using mathematical language 	2-D Grid, Axis, axes, x-axis, y-axis, Origin (First) quadrant, coordinates Point, Translation, Transformation, Reflection, Transformation Object, Image Congruent, congruence Notation	White Rose Position and Direction Assessment https://whiterosemaths.com/wp-content/uploads/2019/05/Year-5-Position-and-direction-1.pdf See also mathematical talk section in white rose

Mathematics Curriculum Progression

				coordinates should be separated by a comma and enclosed in brackets (x, y)	scheme of learning for key questions.
Year 6	Pupils should be taught to: <ul style="list-style-type: none"> - describe positions on the full coordinate grid (all four quadrants) - draw and translate simple shapes on the coordinate plane, and reflect them in the axes. 	<ul style="list-style-type: none"> - The first quadrant - Four quadrants - Translations - Reflections 	<ul style="list-style-type: none"> - Use coordinates in the first quadrant - Identify a translation - Carry out a translation in the first quadrant - Identify a reflection - Carry out a reflection in the first quadrant using mirror lines parallel to the axes - Know the meaning of 'congruent', 'congruence', 'object', 'image' 	2-D Grid, Axis, axes, x-axis, y-axis, Origin Four Quadrants, coordinates Point, Translation, Reflection, Transformation Object, Image Congruent, congruence Notation coordinates should be separated by a comma and enclosed in brackets (x, y)	White Rose Position and Direction Assessment https://whiterosemaths.com/wp-content/uploads/2018/Mini_Assessments_Primary_Autumn/Year-6-Position-and-Direction.pdf See also mathematical talk section in white rose scheme of learning for key questions.

Threshold Concept: Measures (Time, Length, Mass, Capacity, Perimeter, Area, Volume, Converting Units and Money)

	Development Matters and National Curriculum Objectives	Sequence of Learning	Essential Prior knowledge for recall	Vocabulary	Key Questions for assessment
Early Years Foundation Stage	Early Learning Goal: <ul style="list-style-type: none"> - Children use everyday language to talk about size, weight, capacity, time and money to compare quantities and objects and to solve problems. 	<ul style="list-style-type: none"> - Time- my day - Length, height and distance 	Development Matters 40-60 statements: Orders two or three items by length or height. Orders two items by weight or capacity. Uses everyday language related to time. Beginning to use everyday language related to money. Orders and sequences familiar events. Measures short periods of time in simple ways.	Problems involving 'real life' or money compare double, half, halve pair, count out, share out left, left over money, coin, penny, pence, pound, price, cost, change costs the same as how much...? how many...? total Measures (general) measure, size, compare, guess, estimate enough, not enough, too much, too little, too many, too few nearly, close to, about the same as just over, just under Length length, width, height, depth long, short, tall, high, low wide, narrow, deep, shallow thick, thin, longer, shorter, taller, higher... and so on longest, shortest, tallest, highest... and so on	how much...? how many? how many one pence coins do you need to make...? What's the total? Which is the longest etc? Which is the lightest etc? Which bottle is full etc? What day is it today? What day was it yesterday? What time is it? (o'clock) It is phonics now, what happens next?

Mathematics Curriculum Progression

				<p>far, near, close Mass weigh, weighs, balances heavy/light, heavier/lighter, heaviest/lightest balance, weight, scales Capacity full, half full, empty, holds, container Time time, <i>days of the week</i>: Monday, Tuesday..., day, week birthday, holiday morning, afternoon, evening, night bedtime, dinnertime, playtime today, yesterday, tomorrow before, after, next, last now, soon, early, late quick, quicker, quickest, quickly slow, slower, slowest, slowly old, older, oldest new, newer, newest takes longer, takes less time hour, o'clock clock, watch, hands</p>	
Year 1	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - compare, describe and solve practical problems for: lengths and heights [for example, long/short, longer/shorter, tall/short, double/half] - mass/weight [for example, heavy/light, heavier than, lighter than] - capacity and volume [for example, full/empty, more than, less than, half, half full, quarter] - time [for example, quicker, slower, earlier, later] - measure and begin to record the following: lengths and heights mass/weight capacity and volume - time (hours, minutes, seconds) 	<p>Length and Height</p> <ul style="list-style-type: none"> - Compare lengths and height - Measure length <p>Weight and Volume</p> <ul style="list-style-type: none"> - Introduce weight and mass - Measure mass - Compare mass - Introduce capacity and volume - Measure capacity - Compare capacity <p>Money</p> <ul style="list-style-type: none"> - Recognising coins - Recognising notes - Counting in coins <p>Time</p> <ul style="list-style-type: none"> - Before and after - Dates - Time to the hour - Time to the half hour - Writing time - Comparing time 	<ul style="list-style-type: none"> - Order numbers to 12 - Understand how a number line is organised - Understand the concept of time - Beginning to use everyday language related to money 	<p>Money</p> <p>money, coin, penny, pence, pound, price, cost, buy, sell, spend, spent pay, change, dear, costs more cheap, costs less, cheaper costs the same as how much...? how many...? total</p> <p>Measures (general)</p> <p>measure, size, compare, guess, estimate enough, not enough, too much, too little, too many, too few, nearly, <i>roughly</i>, close to, about the same as just over, just under</p> <p>Length</p> <p>length, width, height, depth long, short, tall, high, low, wide, narrow, deep, shallow, thick, thin longer, shorter, taller, higher... and so on, longest, shortest, tallest, highest... and so on, far, near, close <i>metre, ruler, metre stick</i></p> <p>Mass</p>	<p>White Rose Money Assessment https://whiterosemaths.com/resources/assessment/primary-assessment/end-of-block-assessments/ See also mathematical talk section in white rose scheme of learning for key questions.</p>

Mathematics Curriculum Progression

	<ul style="list-style-type: none"> - recognise and know the value of different denominations of coins and notes - sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening] - recognise and use language relating to dates, including days of the week, weeks, months and years - tell the time to the hour and half past the hour and draw the hands on a clock face to show these times 			<p>weigh, weighs, balances heavy/light, heavier/lighter, heaviest/lightest balance, scales, weight</p> <p>Capacity full, half full, empty, holds, container</p> <p>Time <i>days of the week: Monday, Tuesday...</i> <i>seasons: spring, summer, autumn, winter</i> <i>day, week, month, year, weekend, birthday, holiday</i> morning, afternoon, evening night, <i>midnight</i> bedtime, dinnertime, playtime today, yesterday, tomorrow before, after, next, last now, soon, early, late quick, quicker, quickest, quickly <i>fast, faster, fastest</i> slow, slower, slowest, slowly old, older, oldest new, newer, newest takes longer, takes less time hour, o'clock, <i>half past</i> clock, watch, hands <i>how long ago?, how long will it be to...?, how long will it take to...?</i> <i>how often?</i> <i>always, never, often, sometimes, usually, once, twice</i></p>	
<p>Year 2</p>	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels - compare and order lengths, mass, volume/capacity and 	<p>Money</p> <ul style="list-style-type: none"> - Count money - pence - Count money - pounds (notes and coins) - Count money (notes and coins) - Select money - Make the same amount - Compare money - Find the total - Find the difference - Find change - Two-step problems <p>Length and Height</p> <ul style="list-style-type: none"> - Measure length - Compare Lengths - Order lengths 	<ul style="list-style-type: none"> - Read the time to the hour and half past - Draw the hands on a clock face to show the time to the hour or half past - Know the meaning of before, after, next, first, today, yesterday, tomorrow, morning, afternoon, evening and o'clock - Use the language long, short, tall, heavy, light, full, empty, more than, less than, double, half - Use a ruler, weighing scale and container to measure length, mass and capacity 	<p>Money money coin penny, pence, pound, (£) price, cost buy, <i>bought</i>, sell, <i>sold</i> spend, spent pay change dear, costs more cheap, costs less, cheaper how much...? how many...? total</p> <p>Measures (general) measure, size compare <i>measuring scale</i> guess, estimate enough, not enough too much, too little too many, too few nearly, roughly, about, close to, about the same as just over, just under</p> <p>Length length, width, height, depth</p>	<p>White Rose Money Assessment https://whiterosemaths.com/wp-content/uploads/2018/10/Mini-Assessment-Block-3_Year-2-Money.pdf</p> <p>Length and Height Assessment https://whiterosemaths.com/wp-content/uploads/2019/03/Primary_Mini_Assessments/Spring-Block-5-Mini-Assessment-Year-2-Length-and-Height.pdf</p> <p>Time Assessment</p>

Mathematics Curriculum Progression

	<p>record the results using >, < and =</p> <ul style="list-style-type: none"> - recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value - find different combinations of coins that equal the same amounts of money - solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change - compare and sequence intervals of time - tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times - know the number of minutes in an hour and the number of hours in a day. 	<ul style="list-style-type: none"> - Four operations with lengths <p>Time</p> <ul style="list-style-type: none"> - O'clock and half past - Quarter past and quarter to - Telling the time to 5 minutes - Hours and days - Find durations of time - Compare durations of time 	<ul style="list-style-type: none"> - Know and use the symbols >, < and = - Add and subtract one- and two-digit numbers to 20 - Recognise the coins: 1p, 2p, 5p, 10p, 20p, 50p, £1 and £2 - Recognise the notes: £5 and £10 	<p>long, short, tall, high, low wide, narrow, deep, shallow, thick, thin longer, shorter, taller, higher... longest, shortest, tallest, highest... far, further, furthest, near, close metre (<i>m</i>), <i>centimetre (cm)</i> ruler, metre stick, tape measure</p> <p>Mass</p> <p>weigh, weighs, balances heavy/light, heavier/lighter, heaviest/lightest <i>kilogram (kg)</i>, <i>half-kilogram</i>, <i>gram(g)</i> balance, scales, weight</p> <p>Capacity</p> <p><i>capacity</i> full, half full empty holds, <i>contains litre (l)</i>, <i>half-litre</i>, <i>millilitre (ml)</i> container</p> <p>Time</p> <p>time <i>days of the week</i>: Monday, Tuesday... <i>months of the year</i>: <i>January, February</i>...<i>seasons</i>: spring, summer, autumn, winter <i>day, week, fortnight</i>, month, year weekend birthday, holiday morning, afternoon, evening, night, midnight bedtime, dinnertime, playtime today, yesterday, tomorrow before, after next, last now, soon, early, late quick, quicker, quickest, quickly fast, faster, fastest slow, slower, slowest, slowly old, older, oldest new, newer, newest takes longer, takes less time how long ago?/how long will it be to...? how long will it take to...? hour, <i>minute</i>, <i>second</i> o'clock, half past, <i>quarter to</i>, <i>quarter past</i> clock, watch, hands <i>digital/analogue clock/watch</i>, <i>timer</i> how often? always, never, often, sometimes, usually once, twice</p>	<p>https://whiterosemaths.com/wp-content/uploads/2019/05/Year-2-Time.pdf Measurement Assessment https://whiterosemaths.com/wp-content/uploads/2019/06/Year-2-Measurement-1.pdf See also mathematical talk section in white rose scheme of learning for key questions.</p>
<p>Year 3</p>	<p>Pupils should be taught to:</p> <ul style="list-style-type: none"> - measure, compare, add and subtract: lengths 	<p>Money</p> <ul style="list-style-type: none"> - Pounds and pence - Convert pounds and pence 	<ul style="list-style-type: none"> - Know the number of minutes in an hour, hours in a day, and days in a week 	<p>Analogue 12-hour 24-hour o'clock Morning Afternoon Noon, Midnight</p>	<p>White Rose Money Assessment</p>

Mathematics Curriculum Progression

	<p>(m/cm/mm); mass (kg/g); volume/capacity (l/ml)</p> <ul style="list-style-type: none"> - measure the perimeter of simple 2-D shapes - add and subtract amounts of money to give change, using both £ and p in practical contexts - tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks - estimate and read time with increasing accuracy to the nearest minute; - record and compare time in terms of seconds, minutes and hours; - use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight - know the number of seconds in a minute and the number of days in each month, year and leap year - compare durations of events [for example to calculate the time taken by particular events or tasks]. 	<ul style="list-style-type: none"> - Add money - Subtract money - Give change <p>Length & Perimeter</p> <ul style="list-style-type: none"> - Measure length - Equivalent lengths m & cm - Equivalent lengths mm & sm - Compare lengths - Add lengths - Subtract lengths - Measure perimeter - Calculate perimeter <p>Time</p> <ul style="list-style-type: none"> - Months and years - Hours in a day - Telling the time to 5 minutes - Telling the time to the minute - Using am and pm - 24 hour clock - Finding the durations - Comparing durations - Start and end times - Measuring time in seconds <p>Mass & Capacity</p> <ul style="list-style-type: none"> - Measure mass - Compare mass - Add and subtract mass - Measure capacity - Compare capacity - Add and subtract capacity 	<ul style="list-style-type: none"> - Tell and write the time to the nearest five minutes - Measure length using m, cm - Measure mass using kg, g - Measure volume / capacity using l, ml - Recognise the coins: 1p, 2p, 5p, 10p, 20p, 50p, £1 and £2 - Read and say amounts of money using the coins 1p, 2p, 5p, 10p, 20p, 50p, £1 and £2 - Count, say and record amounts of money using the coins 1p, 2p, 5p, 10p, 20p, 50p, £1 and £2 - Recognise the notes: £5 and £10 - Recognise the symbols for pounds (£) and pence (p) - Record amounts of money using either pounds (£) or pence (p) - Find different combinations of coins that equal the same amounts of money - Solve simple problems involving money, including giving change 	<p>Second, Minute, Hour Day, Week, Month Year Leap year Roman Numeral</p> <p>Notation</p> <p>The Roman numeral for 4 is IV. It is the only exception to the rules of Roman numerals as it is sometimes written IIII on a clock or watch</p> <p>Using a.m. and p.m. for 12-hour clock notation</p> <p>Length, distance, Mass Volume Capacity Metre, centimetre, millimetre Kilogram, gram Litre, millilitre Perimeter 2-D</p> <p>Notation</p> <p>Abbreviations of units in the metric system: m, cm, mm, kg, g, l, ml</p> <p>Money Coin Change Note</p> <p>Notation</p> <p>Pounds (£) Pence (p)</p>	<p>https://whiterosemaths.com/wp-content/uploads/2019/01/Primary_Spring_Mini_Assessments/Spring-Block-2-Year-3-Money.pdf</p> <p>Length and Perimeter Assessment</p> <p>https://whiterosemaths.com/wp-content/uploads/2019/02/Primary_Spring_Mini_Assessments/Spring-Block-4-Mini-Assessment-Year-3-Length-and-Perimeter.pdf</p> <p>Time Assessment</p> <p>https://whiterosemaths.com/wp-content/uploads/2019/04/Year-3-Time.pdf</p> <p>Measures Assessment</p> <p>https://whiterosemaths.com/wp-content/uploads/2019/06/Year-3-Measurement.pdf</p>
