

Leigh on Mendip School

Newsletter 21 - 5th March 2021

We are all looking forward to welcoming our children back into school on Monday. Hopefully you all had the chance to read through the arrangements letter sent last week, but if you do have any last minute questions, then please let us know. The staff have spent the end of this week preparing the classrooms and communal areas. As the weather continues to improve we will be using our outdoor space as much as possible so please can all the children have wellies in school.

We exciting news to share with you regarding completing our transition to Primary School. The staff and Governors have spent considerable time thinking about our ethos and vision and you will notice when coming to school that we have a new sign outside the school with 'Nurturing Curious Minds' which we feel sums up what we do with our children. We have also decided that this will be a good time to change the colour of our school uniform to represent us as a Primary School. We have chosen purple as the colour we would like our children to wear and you will be able to start purchasing this from Norton Sports and Camping when it reopens in April. Of course many of you will have a significant amount of red uniform which the children can continue to wear for as long as you would like. We know it will be a few years until all the pupils have transitioned from red to purple! As always we would like all our children to wear a logo jumper or cardigan but all other uniform can be purchased from a shop of your choice. Purple can be brought online at Asda, M&S and Sainsburys if parents wish to purchase purple gingham dresses or additional jumpers.

If you have any questions please contact the school office. Ms Claxton or Miss Stinchcombe will be able to answer them or pass them on to me and I'll get back to you.

Mrs Phillips

Notices

- COVID-19 - please email us should any of your children test positive for Covid-19.
