

### Segment it!

Speak like a robot to say the separate sounds in a word. For example, to spell the word **clear**, say each sound in turn.../c/, /l/, /ear/. Write down the representation of each of these sounds.

### Spelling Rules!

In school, your child will investigate certain spelling principles. It is important that your child understands the principle and can apply it to any word. To help them, they may be asked to consolidate their learning at home. As a parent you will be given clear guidance about the principle.

### Approaches to support learning spellings visually:

Sometimes it is not possible to spell a word by segmenting it. Instead, your child will need to learn it by sight using some of the following strategies to help:

#### What is the difficult bit?

Talk with your child about the tricky bit of the word where the letters do not correspond to the sounds the children know (e.g. in **different** the difficult bit is the **e** in the middle because you can't hear it.)

#### Which looks right?

Write a word 3 times, once spelled correctly and twice with an incorrect spelling. For example: **becus, because, becuz**. Ask your child to point out the one that looks right.

#### Sparkler Writing

Ask your child to close their eyes and imagine that they are writing a word with a sparkler as you spell the word out loud.

#### Speed - write

Give your child 30 seconds to write a word down as many times as they can.

#### Words in words

Talk with your child about words that they can see within a word. For example, "Can you see **the** in **they**?"

### Build it up

Write a word letter by letter:

t  
t h  
t h e  
t h e r  
t h e r

### Display:

On the wall next to where you eat, in the bathroom, up the stairs are all good places to display words.

### Decorate/illustrate a word

Write a word for your child in 'bubble' writing. Use colouring pens/pencils, glitter etc. Talk to your child about the word and its spelling.

### Say it as it sounds

The funny pronunciation can help us remember how to spell a word. For example, say **Wed-nes-day** rather than **Wednesday**.

### Mnemonics

There are a few sight words where a mnemonic may help:

**said: Sally-Anne Is Delightful**

**could: C Oh U Lovely Duck!**

**because: Big Elephants Can Always Understand Small Elephants**

### Look, Cover, Write, Check

Ask your child to look at the word. Then, cover it so they can not see it. Your child should then write it down. Finally, uncover the word and compare your child's spelling with the correct spelling, talking about any differences.

Use chalk to write your spelling words outside.

Pop some paint in a freezer bag and seal it. Then, use your finger to write your words in the paint without getting messy!

Pick 2 words and make them using sticks or twigs.

Pick 4 words. Using an old magazine, cut out the letters you need to make the words and glue them down on a new sheet.

Give an adult a spelling test! How many of your words can they get correct?

Say the word then jump for each letter, shouting them out as you jump.

Make your spelling words using dough.

the

Pick 2 words and draw pictures of them.

Make up a short poem using as many of your spelling words as possible.

Write a short story using as many of your spelling words as you can.

Use jigsaw pieces, toy cars or other small toys to make 3 words from your list.
