

This week at Nursery . . .

This week at nursery the children have had lots of fun playing with the tough tray in the playground.

Sliced oranges and lemons were added with water and glitter for the children to mix, mash and use a range of tools. There was lots of lovely language development as the children played and used their imagination, describing what they were making.

24th September 2021

Star of the week

Our star of the week is

Daisy

We are immensely proud of Daisy this week because she has a new found confidence and has been making friends which has been delightful to see!

A delivery arrived in a large box, lots of lovely new outdoor bean bags and log seats for the reading area have been popular with all of the children this week. The box was popular too and soon developed into a space rocket and a house!

We have been foraging out on the field and also in the woodland. Children found apples and conkers and lots of lovely leaves to use in activities. Patterns have been made in dough and the children have been learning words to describe what they can see and the textures they can feel.

Date for your diary:

Nursery photographs will take place on Thursday 11th November from 8.30am.

Nursery staff will take your child to the school studio for their photo if they are already attending that day. If your child does not attend on Thursdays and you would like their photo taken you will need to bring your child in. There is an opportunity for siblings to join the nursery photo session. There will be more details about this nearer the time.

Have a good weekend from all at Nursery!
