This week at Nursery . . .

3rd November 2023

This week has been a very exciting week in lots of different ways!

Firstly, we are so pleased to announce the arrival of the newest member of our Next Steps family. Congratulations and lots of love to Steph and Alex who welcomed their baby girl, Frankie May, on Sunday 29th October.

This week the home corner has been transformed into a pumpkin patch! The children have been sharing stories of pumpkin picking, so we have recreated our own patch, complete with a garden to grow them in, scales, and a market stall, giving the children an opportunity to grow, weigh and sell various sizes of pumpkins. We've also had a kitchen area with lots of vegetables to add to the pumpkins to make some pumpkin soup!

In forest school the children have been busy making autumn decorations using natural materials found in the woodland. We found some muddy puddles and used sticks to fish for items in the puddles, and of course jump in them!

STAR OF THE WEEK

Our Stars of the Week were awarded for always being helpful to adults and friends, always being kind and caring.

Well done!

Spare Clothing

Please can we ask you to provide spare clothing everyday for your child, including socks. We have limited spare clothing, and with the unsettled weather (and the puddles that follow the bad weather!) we are now running low on socks in particular. If anyone can donate spare socks (odd ones are fine!) we would be really grateful. Thank you.

Parents' Evening - Friday 10th November

Next Friday 10th November we will be holding a parents evening. Bookings with your child's key person can be made via an online system and you should have received an email to book this - if you have not received this, please contact the school office.
